

KEEP ON STRONG HEART

Libby Roderick

I know you're tired
I know you're weary
I know you want
To give up some days

Some days are so hard
Some days are too lonely
But I love you so
And there's no other way

REFRAIN:
So keep on strong heart
Don't fail me now
We must keep going
A little bit longer

Keep on strong heart
I know somehow
You will be there
When the great new days

You have toiling
What seems Like forever
Sometimes you feel
You're right where you began

Your minds starts to ache
Your body, it trembles
It's only your heart
That tells you you can

REFRAIN: So keep on strong heart

And the fight will go
We're talkin' about freedom
we can so we must
and we must so we dare

If your body gives way
I will carry your homeward
That new dawns, my love,
You will be there

REFRAIN: So keep on strong heart

And if you need courage
I'm right here beside you
If I need strength
I will look in your eyes...

And the fight will go on
Talking about freedom
We can so we must
And we must so we dare

If your body gives way
I will carry you homeward
That new dawns my love
You will be there

REFRAIN: So keep on strong heart

REFRAIN: So keep on strong heart

REFRAIN: So keep on strong heart

Yes, we will there
When the great new day dawns
